Pre-CECorps

Underserved Community Identifies a Challenge

✓ Identifies a need within CECorps' areas of expertise*: water, sanitation, energy, structures, civil works, agriculture

✓ Lacks resources or ability to obtain technical services

✓ Applies to CECorps

*CECorps services do not include construction

Community Engineering Corps Works on a Solution

1 CECorps Interviews, Evaluates, and Approves Application

2 CECorps Identifies Volunteer Team

3 Team and Community Collaborate on Work Plan

4 Team Develops a Technical Solution

5 Team Delivers Final Recommended Solution

6 CECorps Monitors and Evaluates

Post-CECorps

Community Implements

Community has increased technical capacity, depending on project, to:

› Apply for funding

› Consider recommended engineering solutions

› Implement designs

› Meet regulations

AND MORE!
